

CONSERVATION STATISTICS

WATER INITIATIVES

include harvesting, conservation, re-use for non-potable & irrigation

3,644,299
Gallons saved

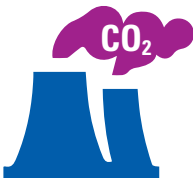

Gallons of sewage effluent diverted from ground disposal

ELECTRICITY INITIATIVES

include building Management System monitoring, HVAC system diversification

Gallons of diesel saved

3,455,898 lbs.
of carbon saved

WASTE REDUCTION & LANDFILL DIVERSION INITIATIVES

includes a recycling programme & on-site medical waste treatment

13,259 LBS
recycled material

of total generated medical waste diverted from landfill

General waste diverted from the landfill

60% of
TOTAL WASTE
diverted from landfill

FUTURE INITIATIVES

include a 1.2 MW solar/HVAC system, continued recycling training & HVAC modifications
